

#### § 4006.4

#### 29 CFR Ch. XL (7–1–11 Edition)

For example, if the number of participants in the plan on the last day of the plan year preceding the premium payment year is 20, the variable-rate premium does not exceed \$2,000 ( $\$5 \times 20^2 = \$5 \times 400 = \$2,000$ ).

(3) *Plans eligible for cap.* A plan is described in this paragraph (b)(3) for the premium payment year if the aggregate number of employees of all employers in the plan's controlled group on the first day of the premium payment year is 25 or fewer.

(4) *Meaning of "employee."* For purposes of paragraph (b)(3) of this section, the aggregate number of employees is determined in the same manner as under section 410(b)(1) of the Code, taking into account the provisions of section 414(m) and (n) of the Code, but without regard to section 410(b)(3), (4), and (5) of the Code.

(c) *Applicable flat premium rate.* The applicable flat premium rate is:

(1) For a premium payment year beginning before 2006—

(i) For a single-employer plan, \$19, and

(ii) For a multi-employer plan, \$2.60.

(2) For a premium payment year beginning in 2006—

(i) For a single-employer plan, \$30, and

(ii) For a multi-employer plan, \$8.

(3) For a premium payment year beginning after 2006, the greater of—

(i) The applicable flat premium rate for plan years beginning in the calendar year preceding the calendar year in which the premium payment year begins, or

(ii) The adjusted flat rate determined under paragraph (d) of this section for the premium payment year.

(d) *Adjusted flat rate.* The adjusted flat rate for a premium payment year beginning after 2006 is determined by—

(1) Multiplying the applicable flat premium rate for 2006 by the ratio of—

(i) The national average wage index (as defined in section 209(k)(1) of the Social Security Act) for the first of the two calendar years preceding the calendar year in which the premium payment year begins, to

(ii) The national average wage index (as so defined) for 2004; and

(2) Rounding the result to the nearest multiple of \$1 (rounding up any

unrounded result that equals some whole number of dollars plus 50 cents).

[61 FR 34016, July 1, 1996, as amended at 72 FR 71228, Dec. 17, 2007; 73 FR 15074, Mar. 21, 2008]

#### § 4006.4 Determination of unfunded vested benefits.

(a) *In general.* Except as provided in the exemptions and special rules under § 4006.5, the amount of a plan's unfunded vested benefits for the premium payment year is the excess (if any) of the plan's premium funding target for the premium payment year (determined under paragraph (b) of this section) over the fair market value of the plan's assets for the premium payment year (determined under paragraph (c) of this section). Unfunded vested benefits for the premium payment year must be determined as of the plan's UVB valuation date for the premium payment year, based on the plan provisions and the plan's population as of that date. The determination must be made in a manner consistent with generally accepted actuarial principles and practices.

(b) *Premium funding target*—(1) *In general.* A plan's premium funding target is its standard premium funding target under paragraph (b)(2) of this section or, if an election to use the alternative premium funding target under § 4006.5(g) is in effect, its alternative premium funding target under § 4006.5(g).

(2) *Standard premium funding target.* A plan's standard premium funding target under this section is the plan's funding target as determined under ERISA section 303(d) (or 303(i), if applicable) for the premium payment year using the same assumptions that are used for funding purposes, except that—

(i) Only vested benefits are taken into account, and

(ii) The interest rates to be used are the segment rates for the month preceding the month in which the premium payment year begins that are determined in accordance with ERISA section 4006(a)(3)(E)(iv). These are the rates that would be determined under ERISA section 303(h)(2)(C) if ERISA section 303(h)(2)(D) were applied by using the monthly yields for the month

preceding the month in which the premium payment year begins on investment grade corporate bonds with varying maturities and in the top 3 quality levels rather than the average of such yields for a 24-month period. For this purpose, the transition rule in ERISA section 303(h)(2)(G) is inapplicable.

(c) *Value of assets.* The fair market value of a plan's assets under this section is determined in the same manner as for funding purposes under ERISA section 303(g)(3) and (4), except that averaging as described in ERISA section 303(g)(3)(B) must not be used and prior year contributions are included only to the extent received by the plan by the date the premium is filed. Contribution receipts must be accounted for as described in ERISA section 303(g)(4), using effective interest rates determined under ERISA section 303(h)(2)(A) (not rates that could be determined based on the segment rates described in paragraph (b)(2) of this section).

(d) *"Vested."* For purposes of ERISA section 4006(a)(3)(E), this part, and part 4007 of this chapter:

(1) A participant's benefit that is otherwise vested does not fail to be vested merely because of the circumstance that the participant is living, in the case of the following death benefits:

(i) A qualified pre-retirement survivor annuity (as described in ERISA section 205(e)), (ii) A post-retirement survivor annuity that pays some or all of the participant's benefit amount for a fixed or contingent period (such as a joint and survivor annuity or a certain and continuous annuity), and

(iii) A benefit that returns the participant's accumulated mandatory employee contributions (as described in ERISA section 204(c)(2)(C)).

(2) A benefit otherwise vested does not fail to be vested merely because of the circumstance that the benefit may be eliminated or reduced by the adoption of a plan amendment or by the occurrence of a condition or event (such as a change in marital status).

(3) A participant's pre-retirement lump-sum death benefit (other than a benefit described in paragraph (d)(1)(iii) of this section) is not vested if the participant is living.

(4) A participant's disability benefit is not vested if the participant is not disabled.

(e) *Illustration of vesting principles.* The vesting principles set forth in paragraph (d) of this section are illustrated by the following examples:

(1) *Example 1.* Under Plan A, if a participant retires at or after age 55 but before age 62, the participant receives a temporary supplement from retirement until age 62. The supplement is not a QSUPP (qualified social security supplement), as defined in Treasury Reg. § 1.401(a)(4)-12, and is not protected under Code section 411(d)(6). The temporary supplement is considered vested, and its value is included in the premium funding target, for each participant who, on the UVB valuation date, is at least 55 but less than 62, and thus eligible for the supplement. The calculation is unaffected by the fact that the plan could be amended to remove the supplement after the UVB valuation date.

(2) *Example 2.* Plan B provides a qualified pre-retirement survivor annuity (QPSA) upon the death of a participant who has five years of service, at no charge to the participant. The QPSA is considered vested, and its value is included in the premium funding target, for each participant who, on the UVB valuation date, has five years of service and is thus eligible for the QPSA. The calculation is unaffected by the fact that the participant is alive on that date.

(f) *Plans to which special funding rules apply.* Unfunded vested benefits must be determined (whether the standard premium funding target or the alternative premium funding target is used) without regard to the following provisions of the Pension Protection Act of 2006 (Pub. L. 109-280):

(1) Section 104, dealing generally with plans of cooperatives.

(2) Section 105, dealing generally with plans affected by settlement agreements with PBGC.

(3) Section 106, dealing generally with plans of government contractors.

(4) Section 402, dealing generally with plans of commercial passenger airlines and airline caterers.
